DRAINAGE BASIN STORAGE
AND
SOIL EROSION PREVENTION STUDY
MADISON/LAKE COUNTY

TABLE OF CONTENTS

- I. INTRODUCTION, AUTHORIZATION AND PURPOSE
 - A. Introduction
 - B. Authorization
 - C. Purpose
 - D. Description Of Study Area
- II. NEEDS ASSESSMENT
 - A. Area impacted by the flood
 - B. Estimated Property Damage
- III. DATA ACQUISITION AND FIELD RECONNAISSANCE
 - A. General
 - B. Hydrologic Data
 - C. Historic Flood Data
 - D. Hydraulic Data
 - E. Field Reconnaissance
 - F. Miscellaneous Data
- IV. HYDROLOGIC EVALUATION
 - A. Introduction
 - B. Basin Description
 - C. Previous Studies
 - D. Gaged Stream Sites
 - E. Hydrologic Analysis
 - 1. General Basin Characteristics
 - 2. Precipitation
 - 3. Loss Rate and Unit Hydrograph
 - F. Reservoir Routings
 - G. HEC-1 Analysis Results
 - H. Recommendations

- L. Lake Outlet Evaluation
 - 1. Lake Herman
 - 2. Lake Madison
 - 3. Brant Lake
 - 4. Summary of Lake Outlet Modifications
- VII. COMPREHENSIVE PLAN DEVELOPMENT
 - A. General
 - B. Comprehensive Plan No. 1
 - 1. Project 1
 - 2. Project 2
 - 3. Project 3
 - C. Comprehensive Plan No. 2
 - D. Plan Development Criteria
 - 1. Culverts and Bridges
 - 2. Cost Criteria
- VIII. PRELIMINARY ENVIRONMENTAL ASSESSMENT
 - A. Environmental Assessment of Alternatives Considered
 - B. Comprehensive Plan #1
 - 1. Project 1 - Construct Detention Dam North of the City Limits
 - 2. Project 2 - Construct Detention Dam West of the City Limits
 - 3. Project 3 - Upsize and or Modify Existing Structures
 - C. Comprehensive Plan #2
 - Land acquisition
 - Environmental Mitigation/Enhancement
 - Socioeconomic Affects
- IX. RECOMMENDED PLAN
 - A. General
 - B. Project 1
 - C. Project 2
 - D. Project 3
- X. PROJECT FINANCING PLAN
